

MMX 102 iE

Dynamic In-Ear Headset

FEATURES

- Impressive sound due to neodymium HD acoustic drivers
- Powerful and precise bass response
- Remote control with high-quality hands-free microphone
- Compatible with portable devices with mini jack socket (3.5 mm)
- Supplied with 3 pairs of eartips in different sizes, cable clip, VoIP adapter and case with a quick acting closure

DESCRIPTION

The MMX 102 iE headset is ideal for all portable devices with a mini jack socket (3.5 mm) such as laptops, tablet computers, MP3 players or smartphones. Due to the closed design music can hardly penetrate to the outside and ambient noise is also effectively attenuated.

The MMX 102 iE features an impressive sound and a high-quality hands-free microphone. With the remote control integrated in the cable calls can be answered and ended. For chats (phone calls or games) via internet a VoIP adapter is supplied.

The thin smooth cable does not get tangled up even when putting the player into a trouser or jacket pocket.

The supplied selection of silicone eartips in three different sizes ensures a perfect fit so that the MMX 102 iE meets all requests regarding comfort, sound and ambient noise attenuation.
